Ibex 20 & Ibex 30

Electronic Coin Counters

GENERAL DESCRIPTION

The **IBEX** models are electronic machines for counting and classifying coins with bag stop program and high-speed operation, fully adaptable to any new coinage issue appearing, equipped with system sort key of currencies with lateral exit for rejected coins. They have millimeter diameter adjustment.

The double knob-adjustment permits easy simple setup. Once the setting of the knobs is enough to count the proper denomination. Coins which are smaller than by at least 0.5 mm than the current coin adjusted are off-sorted automatically. A memory permits the storage of the counted coins.

TECHNICAL SPECIFICATIONS

	IBEX 20	IBEX 30
Dimensions:		
H	185 mm	360 mm
W	238 mm	238 mm
D	360 mm	400 mm
Weight:	8 kg	16 kg
Hopper Capacity:	1500 pieces	4500 pieces
Speed:	Up to 2500 coins/min	Up to 2500 coins/min
Power consumption:	60 W	65 W
Power Supply:	110 / 220 V AC 50 / 60 Hz	
Thickness:	0.8 to 3.4 mm	
Diameter:	14 to 34 mm	
Counting modes:	Continuous or with batches	
Keypad:	Hard Keypad	
Display:	Electronic display with 4 digits	
Remote display:	Optional	
Coin acceptance:	Universal	
Batching:	1-9999 pieces
